Snow Day Picture Cards

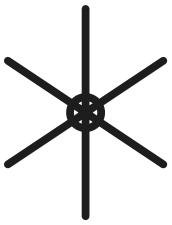

Cut out the cards. Let your toddler pick the next activity. Great for kids who need to see what's coming.

Blanket fort

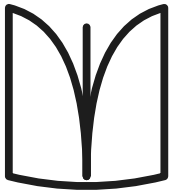

Snowman craft

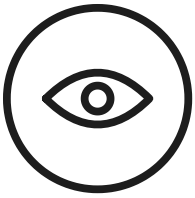

Snowflakes

Warm cocoa

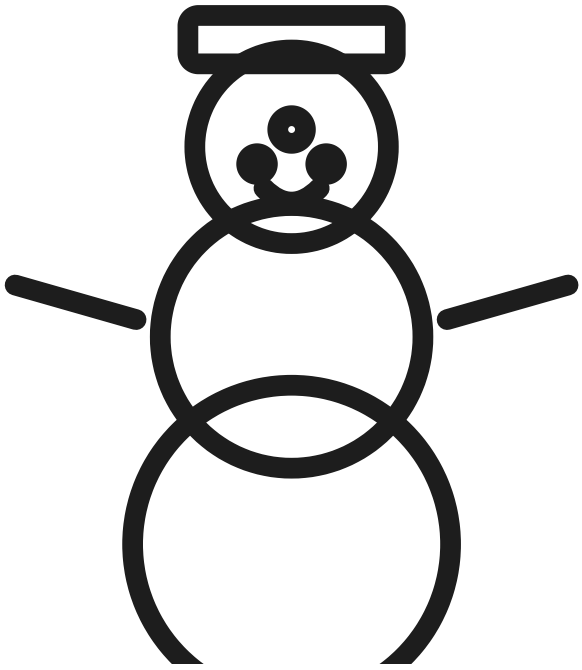

Story time

Dance / music

Color the Snow Day

Big, bold pictures for little hands. Color the snowman, then build a cotton-ball one. Color the mug, then have a real cocoa picnic.

Snow Day Survival Notes

A few reminders so the day stays fun instead of frayed.

Keep the skeleton of the day

Meals, nap and bedtime close to normal. Snow days feel exciting; a familiar rhythm helps little bodies.

Alternate busy and calm

After a dance party or fort build, offer books, coloring or quiet cocoa. Toddlers melt down when every activity is high-energy.

One tray of supplies

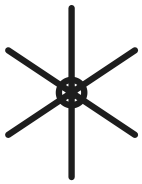

Put crayons, stickers, cotton balls and paper on one tray. Clean-up is faster and you are not hunting for glue.

Screens are optional, not required

A short show while you make lunch is fine. A whole day of screens usually means a harder bedtime.

Safety first outdoors

If you go out: layers, dry gloves, and short stretches. Watch for numb fingers and wet clothes. Come in to warm up often.

You've got this.
